

What's New at SNG Barratt?

Check out what is new to range at SNG Barratt this week...

New in Stock!

Front Lower Wishbone Arm — Jaguar E-Type Cylinder Cars (C15375*)

Made obsolete earlier in the year, SNG Barratt moved swiftly to secure an ongoing supply of this key suspension component. Available now for cylinder cars, so a discontinued listing doesn't become the reason a car comes off the road. Click [here](#) to view part on website.

Engine Timing Belt Kit — Jaguar XF (X260), XJ (X351) & F-Pace 3.0 Diesel (C2D46699*)

Dayco-branded kit including both tensioner and drive belt, so there's no need to source them separately. A trusted solution at around a third of the cost of the original equipment part, in stock now for prompt dispatch. With timing belt failure, a serious risk on these engines, having both components ready to go in one box takes the guesswork out of the job. Click [here](#) to view part on website.

Front End Supercharger Repair Kit — Jaguar XF (X260), XJ (X351) & XK (X150) 5.0L Supercharged (C2D58056*)

A cost-effective solution to worn supercharger components on the 5.0L V8. This kit repairs the front end of the supercharger without replacing the whole unit, saving both parts cost and labour. It's a straightforward way to restore proper performance without the expense of a full supercharger replacement. Click [here](#) to view part on website.

Can't find what you're looking for? SNG Barratt is constantly producing new and uprated parts for classic and modern Jaguars. If there is a part you cannot find on the website or a part you think SNG Barratt should consider making, don't hesitate to
