

PRE / POST RALLY TOURS

The Jaguar National Rally in 2023 will be organised by The Jaguar Drivers Club of South Australia. We are very conscious that the last three National Rallies have been cancelled due to COVID restrictions. Therefore we are taking a very cautious attitude to the organisation of this event hopefully without destroying the central and important aspects that we have all come to enjoy.

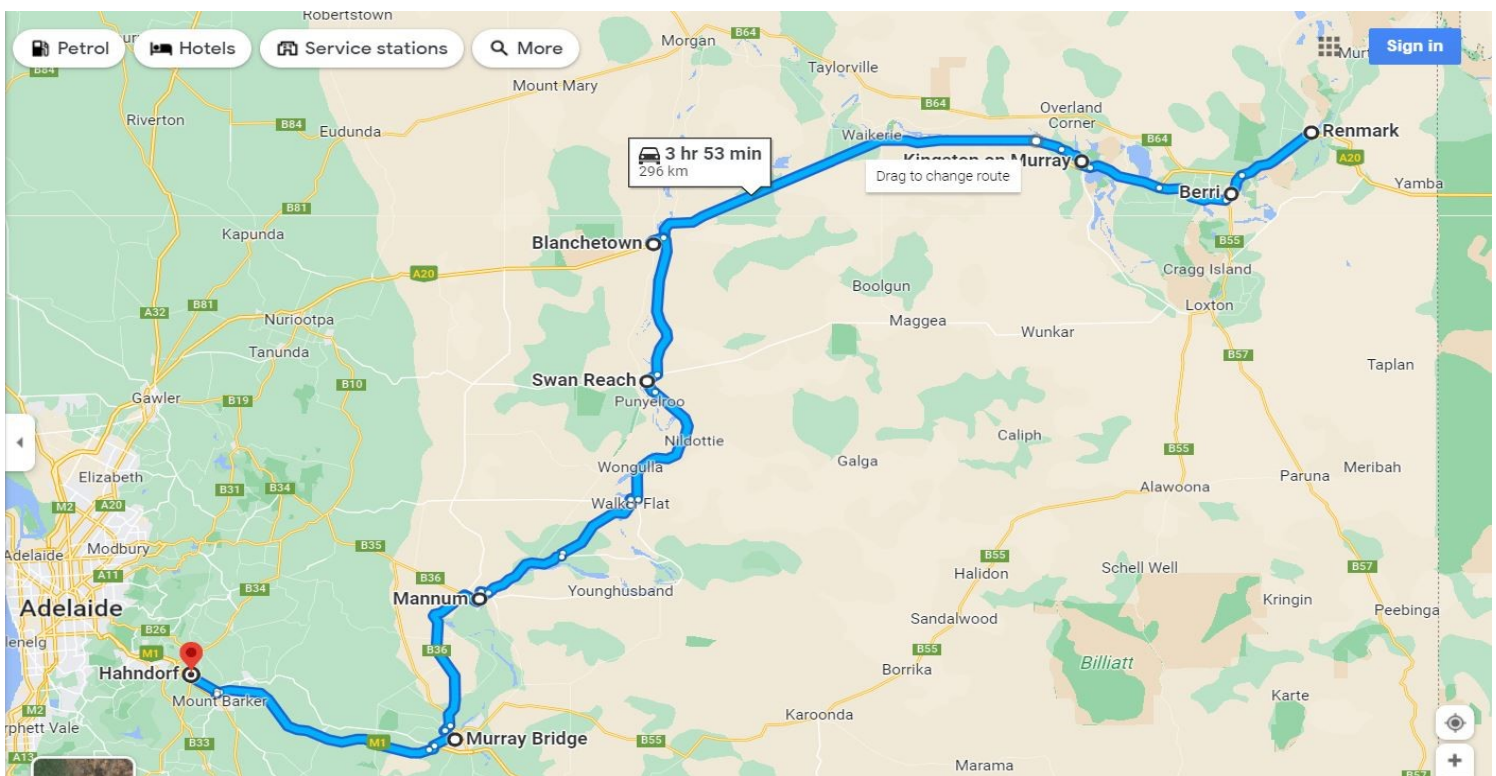

The biggest change relates to the traditional Post Rally Tour. Traditionally an additional 4 or five day event following the main rally.

We are suggesting that interstate clubs seek to organise a Pre or Post Rally Tour from a start point in their state that will take three to 5 days either pre rally or post rally. ie Getting to the rally or getting home from the rally as a group.

To this end the following provides some suggestions that could be considered with a concentration on South Australian stop over options that will be of interest to our interstate friends.
