

## Phil and Ruth the Can-Do Couple

In 2022 long term members Phil Sperryn and Ruth Bodey retired from service on the Brisbane Committee to travel and play more golf. With more than 50 years club membership between them they have been very active committee members for 10 of those years– or 20 between them.

They have organised numerous adventures. You might remember the 3 day trip to Murwillumbah, 3 days to Kingaroy and the two day Warwick weekend most recently. Day trips they have organised include a cruise on the Brisbane River, St Helena Island and a day out at Seaworld. They are also veteran organisers of the annual Christmas Party, firstly at the Belvedere, the Moreton Bay Trailer Boat Club and the past two years at the Wynnum Manly Leagues Club.

Ruth compiled Cat Chat for four years additionally, deputising Phil to research and write monthly articles.

Thanks for everything Phil and Ruth (and the lovely E type) and although they remain active club members we will miss their organisational skills tremendously.

### From the Chairman...

There are a couple of awards that I have the honour to present to two of our members for their efforts. Unfortunately, one of them is not present, but it needs to be done anyway. One is a Badge of Merit to Tony Nelson for his outstanding work gathering E-types for Belmont this year and assisting Neil with several Peak Crossing events. The other is also a Badge of Merit to Neil Summerson for the effort involved in holding said Peak Crossing events especially with the frustration involved with postponements these past couple years. Congratulations to both.

# 1950 XK 120 sports Number 660151

By Lloyd Andersen

The XK 120 was first built solely as an open top sports car and the earliest cars were of all aluminium alloy body. Most of these went to movie stars and other famous wealthy people. Demand for the model meant serious production in mostly steel body began in

March 1950, with the first steel bodied, right hand drive car being chassis number 660059.

XK 120 number 660151 was built in July 1950 and bought new in March 1951 by Lorna Seaton of Dalveen, Queensland. She sold it in March 1954 to Dr. John Best of Warwick who replaced it with an XK150 drophead coupe in February 1960 and sold the XK120 to John Bange of Clifton. John had an airstrip on his property and used the XK120 to tow launch gliders. The car was often parked at the entrance to his property with a sign attached advertising joy flights.

The model aircraft on the bonnet was part of the advertising. Ownership passed to his son Raymond Bange and with Ray's move to a retirement complex, the car's caretaker until recently was John's grandson Peter Bange. Upon sale of Peter's property at Pullenvale the family lacked space, so the car is now 'temporarily' in my care and in my shed.

No serious attempt at restoration has been done, so the car shows the patina of age and use. The engine cylinder head was replaced at some time with another of similar age. Indicators have been added, as early XK roadsters had none. A rough respray in original red was done many years ago. Seats have been covered in vinyl over the worn original leather. The original soft top and side curtains are in place behind the seats and the tonneau is in the boot.

The car retains its original registration plate from 1951. It still goes like a rocket and thanks to recent work, the brakes are good, and the electrics are in working order.
